

ASIMCO Group produces S and P type injectors, supplying to diesel engines manufacturers such as Yuchai, FAW Jiefang, Chaochai, Fuchai, Weichai, Shangchai, Yunnei, Jianghuai, Dongfeng. The company developed a new type of fuel injector for Euro III emission standard to meet the continuously growing domestic and global market.

### S Type Injectors

Connecting Method with Engine: Flange, Clamping, Screw

Outer Diameter Mounting with Engine:  $\phi 21\text{mm}$

Maximum Open Pressure: 240bar

Pressure Regulator Method: Screw, Spacer

**Product Feature:** Provide atomized fuel for engine.

Matching with large, medium and small diesel engines

**Customer Supplied:** Dachai, Xichai, Cummins, Yuchai, Chaochai, Yunei, Yangchai, Jianghuai, Changchai, Beinei, Huachai, Beiqi Foton.

### P Type Injectors

Connecting Method with Engine: Clamping, Screw

Outer Diameter Mounting with Engine:  $\phi 17\text{mm}$

Maximum Open Pressure: 300bar

Pressure Regulator Method: spacer

**Product Feature:** Provide atomized high pressure fuel for engine, greatly reduced the waste emission by diesel engines and improved the fuel consumption and emission performance. It matches for large, medium and small power diesel engines.

**Customer Supplied:** Dachai, Xichai, Cummins, Yuchai, Chaochai, Yunnei, Jiangqi, Beiqi Foton.
