

Starter for Commercial Vehicle

Model: QD154E

Major Customers and Applications:

Dongfeng Cummins 6BT, Tianjing Perkins, Yituo 6105, Yuchai4108

Feature:

1. Small size and light
2. Low temperature start function and good reliability
3. Quadruple-pole straight output
4. Dia. E 117

Model: QD258

Major Customers and Applications:

Dongfeng Cummins 4BT, Chao Chai4102, Yangchai 4102, Yunnei 4102, Xichai 4102

Feature:

1. Small size and light
2. Low temperature start function and good reliability
3. Quadruple-pole straight output
4. Dia. E 115

Model: QD2624

Major Customers and Applications:

Dongfeng Cummins 6BT, Tianjing Perkins, Chao Chai 6102, Yuchai 4108, Yuchai 4110

Feature:

1. Small size and light
2. Low temperature start function and good reliability
3. Quadruple-pole straight output
4. Dia. E 115

Model: QD2601

Major Customers and Applications:

Xichai 4110, 4113, Dachai 4110, 4113, Yuchai 4112

Feature:

1. Small size and light
2. Low temperature start function and good reliability
3. Quadruple-pole straight output
4. 8 pinion HD overrunning clutch
5. Dia. E 125

Starter for Commercial Vehicle

Model: QD271

Major Customers and Applications:

Xichai 6110, 6113, Dachai 6110, 6113, Yuchai 6112

Feature:

1. Small size and light
2. Low temperature start function and good reliability
3. Quadruple-pole straight output
4. 8 pinion HD overrunning clutch
5. Dia. E 125

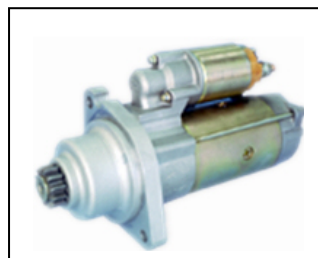

Model: QDJ2653

Major Customers and Applications:

Dachai DEUTZ, Yuchai 6112

Feature:

1. High output and efficiency
2. Outstanding cold start function and low electric power consumption
3. Quadruple-pole planetary gear reduction
4. Structure of low noise planetary gear

Model: QDJ2663

Major Customers and Applications:

Xichai CA6DL, 6110

Feature:

1. High output and efficiency
2. Outstanding cold start function and low electric power consumption
3. Quadruple-pole planetary gear reduction
4. Structure of low noise planetary gear
5. Completely sealed in jib
6. Soft start structure
